

# CLARIMEX 061 CAE PLUS AW

# TECHNICAL DATA SHEET

## POWDERED ACTIVATED CARBON

Powdered activated carbon, lower pH, of vegetable origin, manufactured from Wood with phosphoric acid under carefully controlled conditions.

**CLARIMEX 061 CAE PLUS AW** is a superior quality product appropriate for a wide range of chemical and food applications. It is particularly effective in the adsorption of organic impurities of higher molecular weight like proteins and large color bodies. The lower pH of CAE Plus AW will often improve removal efficiency in various applications.

PARAMETER	SPECIFICATIONS	TYPICAL
pH	2.0 – 4.0	
Moisture, as packed, %	10 max.	
Decoloración de melazas	175 min.	
Methylene blue adsorption g MB/100 g	21.5 min.	
Iodine number, mg I <sub>2</sub> /g	850 min.	
Water solubles, %	4 max.	
Ash %	3 max.	
Apparent density. g/cc		0.25
Vacuum Filtration, s cm <sup>2</sup> / ml g		0.40
MESH SIZE		
Passing 400 mesh, %	80 min.
